## IntelliTrack® WMS Warehouse Management Solution

### IntelliTrack® WMS Software

IntelliTrack® WMS is a reliable, affordable, and easy-to-use warehouse management solution available in both batch and real-time radio frequency (RF) versions. Benefits of the IntelliTrack® WMS system include improved inventory accuracy, increased labor productivity, and better customer service.

IntelliTrack® WMS includes advanced warehouse management capabilities, including directed picking and put-away, cubing, wave management, and cross docking.

IntelliTrack® WMS was designed with scalability in mind. Microsoft® SQL Server support means that you can comfortably handle hundreds of users and tens of thousands of SKU's with excellent response time. IntelliTrack® WMS was developed with the latest Microsoft® development tools, assuring compatibility with most any system. Since source code is included for the workstation client, you have the ability to modify reports, bar code labels, perform special queries, or even change the look and feel of the software.

By combining IntelliTrack® WMS with an RF terminal, you create a complete low-cost, real-time warehouse management system.

With thousands of IntelliTrack® installations worldwide, you can be assured of solid performance and reliability. IntelliTrack® WMS is an ideal solution for warehouse operations in manufacturing, distribution, retail, government, and healthcare.

## Specifications

### IntelliTrack WMS

Warehouse Management Solution

**Barcode Printing:** Integrated barcode printing allows you to label your inventory and locations quickly and easily based on the data contained in your IntelliTrack® application. Portable data terminal support and barcode labels maximize data accuracy and efficiency when collecting inventory information.

**Easy to Use:** IntelliTrack is a user-friendly Windows® application. Easy menu navigation allows you to quickly perform common inventory tasks. Because it is a Windows® application, IntelliTrack's user interface will be familiar to anyone who is accustomed to working in this environment.

**Support Services:** Your first call for IntelliTrack technical support is free for standard, non-customized IntelliTrack software. You may use this call for multiple issues.

A one-year maintenance agreement is available and includes technical support and free minor maintenance releases. Contact your reseller or distributor to purchase a maintenance agreement.

### Complete Management Solution

- Windows® 2000 Compatible
- Access 2000 Source Code
- Microsoft® SQL Server Compatible
- Multiple Technical Support

### System Requirements

#### Server

##### PROCESSOR

- Pentium III 800 MHz minimum
- Pentium III 1 GHz recommended

##### RAM

- 128 MB minimum
- 255 MB or greater recommended

##### AVAILABLE HARD DISK

- 200 MB

##### OPERATING SYSTEM

- Windows® 2000
- Windows® XP
- Windows® NT 4x

#### Client Workstation

##### PROCESSOR

- Pentium II 300 MHz minimum
- Pentium III 500 MHz recommended

##### RAM

- 128 MB minimum
- 256 MB or greater recommended

##### AVAILABLE HARD DISK

- 300 MB

##### OPERATING SYSTEM

- Windows® XP
- Windows® 2000
- Windows® NT 4x
- Windows® 98 Second Edition
- Windows® ME
