

Mobile Cruiser

Touch Screen Data Collection Computer

The Mobile Cruiser is a rugged Windows® touch screen computer. The Mobile Cruiser is a shop floor PC with an advantage: It can be removed from its docking cradle for remote operation and scanning with its optional built-in laser scanner. The Mobile Cruiser's full color VGA touch screen is ideal for displaying complex information. With its optional Wi-Fi (802.11b RF) connection the Mobile Cruiser can access your network in real time for applications such as work-in-process, MES and labor tracking.

Specifications

Display

- VGA with 2/4MB VRAM
- TFT LCD (6.4") high luminance
- 640 x 480 pixels
- Resistive touch screen

Packaging
